

## This year, Together's observation courses will be different - we're going online !

*The health crisis modifies our daily non formal education and learning practices. With more solidary actions, more online activities. But also an increase of social inequality, poverty, intolerance, acts of discriminations.*

### What is Together we can do it ?

An Erasmus program of training, reciprocal learning and analysis of practices, for actors of non formal education working for inclusion and social justice in their country. This program pursues an objective of producing knowledge drawn from the experience of all the participants, shared through a capitalization tool in the form of a web documentary, in order to spread the lessons within the national and international network and among the non-formal education sector.

### What has been done ?

- ▶ 5 face-to-face observation courses
- ▶ which gathered 100 participants
- ▶ from 4 different countries and organizations
- ▶ 1 webdocumentary

**A tool to capitalize and share practices and projects enabling empowerment discovered in the 4 different countries.**

This webdoc is a perfect tool to remember how was built the project and to spread the way volunteers and professional are working to empower people in Belgium, Germany, Italy and France.

<http://annickb-videaste.fr/CPOSSIBLE>

## What to expect from an online observation course ?

*Come experiment and create with us what an online course can be ! We are not professionals in digital tools, but we will do our best to create an atmosphere conducive to learning and exchanging practices.*

- ▶ **A european experience** : participants from 4 different countries speak about empowerment.
- ▶ **Discovery of a local** culture, of a context and a way of working.
- ▶ **Exchanges of practices** between european peers.
- ▶ **Meetings and talks** with local volunteers or beneficiaries.
- ▶ Virtual tours, online workshops...

“  
*It is useful and enriching to compare our experiences and our practices. They open onto another vision of our commitment which, after maturation, can resurface in our organizations.*  
”  
French participant in Berlin

## Observation courses to come

### ▶ Italy - 22 to 27th of march 2021

#### **Engagement of vulnerable adults.**

A discovery of the regional network aimed at citizen empowerment. A virtual visit of Genoa, Savona and Sestri Levante. Meeting with Arci Liguria to know their work with vulnerable people. Focus on the promotion of welcoming systems for immigrant citizens.

### ▶ Belgium - 6 to 9th of april 2021

#### **Empowerment during and after pandemic.**

Discover a project of popular university lead by citizens and anti-fascist activists. How they tackle the impunity of police violence, the criminalization of activism and social movements.

### ▶ Germany - 3 to 10th of may 2021

#### **Empowerment during pandemic.**

How empowerment works in pandemic. The effect on neighbourhood projects. How can we adapt ourselves? Tools and ways to reach the neighbours during pandemic and after.

## What is expected from participants ?

### Each observation course is a process

Like in face-to-face observation course, there are different steps : moment to learn to know each others, moment to discover a project, moment to exchange with the other participants or with the hosting team. The participant should register for the all observation course and participate to all the sessions.

### Each observation course is an occasion to produce contents for the webdoc

The webconferences are built to permit exchanges. At the end of each session or at the end of the week, the participants can be asked to answer questions, to evaluate, to give their point of view about what they have seen. This can be used to enrich the webdoc.

## Interested in attending a course ? See how to register

*Observation courses are open to both professionals and volunteers in our organizations. If you want to attend an online course, please get in touch with your national referent !*

*Each online course lasts between 4 and 7 days. Each day, the participant is invited to a webconference on a specific issue. A link to join online sessions is sent at least the day before.*

*In each country, local referents are there to help you with technical issues.*
